Unified Access to controlled vocabularies with BARTOC

Mini-ELAG 2021

2021-06-30

BARTOC in a nutshell

Basic Register of Thesauri, Ontologies & Classifications (BARTOC)

- Catalog of Knowledge Organization Systems (KOS)
- All types, domains and subject areas
- Support knowledge and usage of KOS
- Unified access to metadata of > 3,300 KOS
 - description, domain, publisher, license, access...
 - freely available via API, LOD and download

2

BARTOC relaunch (2020/21)

- Migration from Drupal CMS to coli-conc infrastructure
- Moved to and hosted by team coli-conc at VZG, Göttingen
- Renamed from "Basel Register..." to "Basic Register..."
- Kept stable URLs and most features

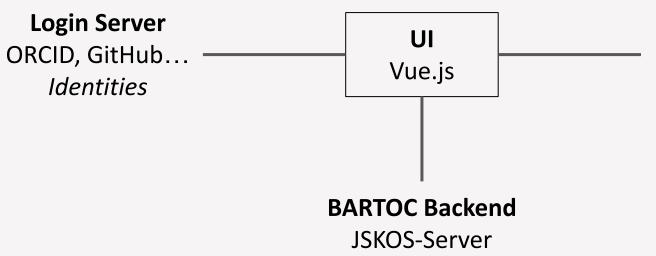

2

BARTOC infrastructure

1. Nuclear and particle physics : an introduction

Integration in other web applications

- Use BARTOC to find vocabulary data and APIs
- Reuse our web interface implementation
 See https://github.com/qbv/jskos-vue/tree/dev for next version

7

Planned features

- Improve metadata search with facets and i18n
- Improve vocabulary search and browse
 - Extend direct access via more vocabulary APIs
 - Improve cataloging of vocabulary APIs
- Integration with other KOS registries
 - Linked Open Vocabularies (LOV), BioPortal, TemaTres, Wikidata...

Thank You!

Please contact us to become a BARTOC partner!
